

Quirky Doodle Birds

1. Begin by folding your square paper across the diagonal to make a triangle.

2. Then bring the right pointy corner over to meet the corner with the right angle.

3. Repeat with the left pointy corner. You should now have a square with two flaps.

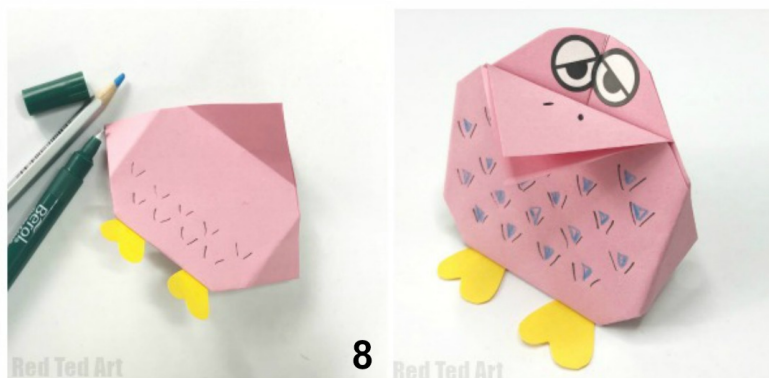

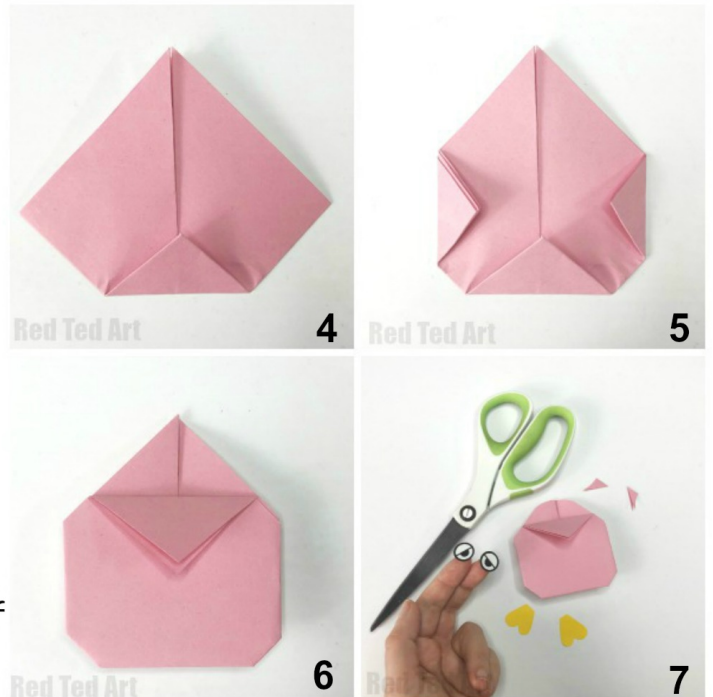

4. Rotate the square, so you have a diamond in front of you. Fold up the base by about 1.5cm – this will make a little “stand” that will allow your Paper Bird Origami to stand up.

5. Fold in the sides by about 1cm – this will be your paper bird’s wing.

6. Flip the paper over. And fold down the top two flaps as per the pictures. This is your origami bird’s beak.

Your basic origami bird is now finished and will stand freely!

7. If you want to make the bird extra cute.. you can trim the head a little.. add some sticky eyes and glue on some feet! But all of these are totally optional.

8. Finally we had fun adding some doodle decorations to the quirky paper bird’s tummy.
